SUMMARY

BS Computer Science student at Islamia University Bahawalpur (RYK Campus) with 1.5+ years of hands-on software engineering experience. Specialized in React frontend development, C#/.NET application development, REST API integration, and real-time networking systems. Delivered production-grade work for Sipra Fusion — including corporate websites, a multi-tenant SaaS platform, and a LAN-based VoIP desktop application. Passionate about building reliable, user-focused software that solves real problems.

TECHNICAL SKILLS

Languages	C# · JavaScript (ES6+) · SQL · HTML5 · CSS3
Frontend	React · Bootstrap · Responsive Design · Flexbox · CSS Grid · UI/UX
Backend	C# / .NET · REST APIs · API Integration · Authentication Flows
Databases	SQL Server · Firebase (Auth, Firestore)
Desktop & Networking	WinForms · UDP Client/Server · NAudio · Opus Codec · LAN Communication
Tools	Git · GitHub · Visual Studio · VS Code · Postman
Soft Skills	Problem Solving · Team Collaboration · Clear Communication · Fast Learner · Attention to Detail

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER

2025 – 2026

Sipra Fusion · Rahim Yar Khan, Pakistan

Full-time software engineer across multiple client projects — delivering production-ready web applications, enterprise software, and real-time networking systems.

- ▶ Developed 8+ responsive corporate and educational websites using React, JavaScript, Bootstrap, and CSS3.
- ▶ Built the complete frontend of a multi-tenant SaaS School Management System with role-based portals for Admin, Teacher, Student, and Parent users.
- ▶ Engineered a full-duplex LAN VoIP desktop application in C#/.NET using UDP sockets, NAudio, and Opus codec — with noise suppression, echo cancellation, and jitter buffering.
- ▶ Integrated and tested 20+ REST API endpoints with existing .NET backend services and SQL Server databases.
- ▶ Implemented frontend authentication flows, role-based interface logic, and dynamic data-driven dashboards.
- ▶ Collaborated with backend engineers, designers, and product managers to ship features on schedule.

REACT / FRONTEND DEVELOPER

2024 – 2025

Sipra Fusion · Rahim Yar Khan, Pakistan

Focused on building responsive, high-performance web applications for corporate and educational clients.

- ▶ Developed the Sipra Corporation corporate website with modern UI/UX, smooth animations, and responsive layouts.
- ▶ Built the Sipra Fusion technology-focused corporate website using React, JavaScript, and Bootstrap.
- ▶ Created the Sipra Educational Platform with course listings, registration forms, and inquiry features.
- ▶ Designed and shipped multiple campus landing pages for the SFSchool platform (SFSchool, Cave School).
- ▶ Built reusable React components used across multiple client projects to accelerate delivery.

PROJECTS

LAN VoIP Communication System

[C#/.NET WinForms](#) · [UDP](#) · [NAudio](#) · [Opus Codec](#)

Real-time voice communication desktop application for wired and wireless LAN networks. Built from scratch.

- Full-duplex voice communication via UDP client/server.
- Opus audio compression for efficient bandwidth usage.
- Real-time audio capture, processing, and playback.
- Advanced features: noise suppression, echo cancellation, jitter buffer, and packet recovery.
- Dynamic audio device switching.

Repository: github.com/sawira-dev

Multi-Tenant SaaS School Management System

[JavaScript](#) · [C#](#) · [.NET](#) · [REST APIs](#) · [SQL Server](#)

Frontend of a multi-tenant SaaS platform with role-based access for multiple schools.

- Built 4 role-based portals: Admin, Teacher, Student, Parent.
- Modules: Admissions, Attendance, Exams, Fees, Library, Transport, Notifications.
- Integrated 20+ REST API endpoints.
- Implemented frontend authentication and authorization flows.

Live Demo: demo-sfschool.sipracorporation.com

Sipra Educational Platform

[React](#) · [Bootstrap](#) · [CSS3](#) · [JavaScript](#)

Training programs website serving multiple course cohorts.

- Course listings with dynamic filtering.
- Program registration and enrollment forms.
- Contact and inquiry features.
- Fully responsive design for mobile and desktop.

Live Site: sipraedu.sipracorporation.com

Sipra Corporation Website

[React](#) · [Bootstrap](#) · [CSS3](#) · [JavaScript](#)

Corporate website for a technology and business solutions firm.

- Modern UI/UX with smooth scroll animations.
- Service showcase and portfolio sections.
- Contact form with validation.
- Fully responsive layout.

Live Site: sipracorporation.com

Sipra Fusion Website

[React](#) · [JavaScript](#) · [Bootstrap](#) · [CSS3](#)

Corporate website for a technology-focused business division.

- Modern, professional layout.
- Responsive design system.
- Service and solution showcase.

Live Site: siprafusion.com

SFSchool & Cave School Landing Pages

[JavaScript](#) · [HTML5](#) · [CSS3](#) · [Bootstrap](#)

Responsive landing pages for multi-tenant school management platforms.

- Platform overview and module highlights.
- Feature sections and contact inquiries.
- Mobile-first responsive design.

Live Sites: sfschool.sipracorporation.com · cave-sfschool.sipracorporation.com

Student Assignment Portal

[React](#) · [Firebase](#) · [JavaScript](#)

Web portal for managing student assignments and submissions.

- Assignment submission and tracking.
- Grading interface for teachers.
- Deadline reminders and notifications.
- Firebase authentication and Firestore database.

EDUCATION

BS COMPUTER SCIENCE

2022 – Present

Islamia University Bahawalpur (RYK Campus) · Rahim Yar Khan, Punjab, Pakistan

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Web Technologies, Computer Networks, Software Engineering, Operating Systems, Software Design Patterns

ACHIEVEMENTS & HIGHLIGHTS

- Developed a fully functional LAN-based VoIP application from scratch — rare project demonstrating deep networking and real-time systems knowledge.
- Contributed to a live multi-tenant SaaS platform serving production users.
- Built 8+ real-world web applications for corporate clients.
- Integrated and tested 20+ REST API endpoints with .NET backends.
- Practical experience with SQL Server, Firebase, and UDP networking.

ADDITIONAL INFORMATION

Languages: English (Professional Working Proficiency), Urdu (Native)

Availability: Open to internships, freelance projects, and full-time roles. Available for remote, hybrid, or on-site work. Open to relocation for the right opportunity.

Interests: Software architecture and clean code, real-time communication systems, full-stack web development, learning new technologies.
