SUMMARY

BS Computer Science student at Islamia University Bahawalpur (RYK Campus) with 1.5+ years of hands-on software engineering experience. Specialized in React frontend development, C#/.NET application development, REST API integration, and real-time networking systems. Delivered production-grade work for Sipra Fusion — corporate websites, a multi-tenant SaaS platform, and a LAN-based VoIP desktop application.

TECHNICAL SKILLS

Languages: C# · JavaScript · SQL · HTML5 · CSS3

Backend: C#/.NET · REST APIs · API Integration · Auth

Networking: WinForms · UDP · NAudio · Opus · LAN

Frontend: React · Bootstrap · Flexbox · CSS Grid · UI/UX

Databases: SQL Server · Firebase (Auth, Firestore)

Tools: Git · GitHub · VS · VS Code · Postman

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER

2025 – 2026

Sipra Fusion · Rahim Yar Khan, Pakistan

- Developed 5+ responsive corporate and educational websites using React, JavaScript, Bootstrap, and CSS3.
- Built the complete frontend of a multi-tenant SaaS School Management System with 4 role-based portals (Admin, Teacher, Student, Parent).
- Engineered a full-duplex LAN VoIP desktop application in C#/.NET using UDP sockets, NAudio, and Opus codec with noise suppression and echo cancellation.
- Integrated and tested 20+ REST API endpoints with .NET backend services and SQL Server databases.
- Implemented frontend authentication flows, role-based interfaces, and dynamic dashboards.

REACT / FRONTEND DEVELOPER

2024 – 2025

Sipra Fusion · Rahim Yar Khan, Pakistan

- Developed the Sipra Corporation corporate website with modern UI/UX, smooth animations, and responsive layouts.
- Built the Sipra Fusion technology corporate website using React, JavaScript, and Bootstrap.
- Created the Sipra Educational Platform with course listings, registration forms, and inquiry features.
- Designed and shipped campus landing pages for the SFSchool platform (SFSchool, Cave School).
- Built reusable React components used across multiple client projects to accelerate delivery.

PROJECTS

LAN VoIP Communication System

C#/.NET WinForms · UDP · NAudio · Opus

Real-time voice communication desktop app for LAN networks — full-duplex, Opus compression, echo cancellation, jitter buffering.

Repo: github.com/sawira-dev

Sipra Educational Platform

React · Bootstrap · CSS3 · JavaScript

Training programs website with course listings, registration forms, contact and inquiry features — fully responsive.

Live: sipraedu.sipracorporation.com

Sipra Fusion Website

React · JavaScript · Bootstrap · CSS3

Corporate website for a technology-focused business division — modern, professional layout with responsive design.

Live: siprafusion.com

Multi-Tenant SaaS School Management System

JavaScript · C# · .NET · REST APIs · SQL Server

Frontend of a multi-tenant SaaS platform with 4 role-based portals and modules for Admissions, Attendance, Exams, Fees, Library, Transport.

Live: demo-sfschool.sipracorporation.com

Sipra Corporation Website

React · Bootstrap · CSS3 · JavaScript

Corporate website for a technology and business solutions firm — modern UI/UX, smooth animations, service showcase.

Live: sipracorporation.com

SFSchool & Cave School Landing Pages

JavaScript · HTML5 · CSS3 · Bootstrap

Responsive landing pages for multi-tenant school platforms — platform overview, feature sections, mobile-first design.

Live: sfschool.sipracorporation.com

EDUCATION

BS COMPUTER SCIENCE

2022 – Present

Islamia University Bahawalpur (RYK Campus) · Rahim Yar Khan, Punjab, Pakistan

Coursework: Data Structures & Algorithms · OOP · Database Systems · Web Technologies · Computer Networks · Software Engineering

ADDITIONAL INFORMATION

Languages: English (Professional Working Proficiency), Urdu (Native)

Availability: Open to internships, freelance projects, and full-time roles. Remote, hybrid, or on-site. Open to relocation.
